

WINTER BARLEY

Barnabus

Your ally in the field!

6-row hybrid barley. Barnabus combines hybrid vigor with a remarkable disease profile, particularly against leaf spots, dwarf rust and powdery mildew. The tolerance to stem breakage provides extra security in the field. Large and productive variety, it aims for the highest yields thanks to the heterosis effect.

AGRONOMIC CHARACTERISTICS

Alternativity	4
Stem elongation earliness	3,5
Heading earliness	6,5
Ripening earliness	6
Frost tolerance	4,5
Tillering capacity	6
Straw length	6
Lodging resistance	5,5
Stalk breakage	6,5
Mosaic virus Y1	9

SOWING INFO

END OF SEPTEMBER

3.5 doses/ha

OCTOBER

4 doses/ha
