

Flowers for everywhere

MP08699 - Specific - Soil & location

CHARACTERISTICS

This is a mixture of short, robust flowers that are undemanding in terms of soil type and have been specially developed to bloom in challenging locations, such as shaded areas, under trees, in central reservations, along walls...

It offers a wide range of colours and can be used in places where chemical weed control products might previously have been applied.

Plant height: 20-40 cm

Flowering:

From summer onwards for spring sowings

From spring onwards in subsequent years

Composed of 17 annual and 17 perennial species.

COMPOSITION
