

Flowers for Orchards and Vineyards

MP08796 - Ecosystems - Biodiversity

CHARACTERISTICS

This annual mixture is not only visually striking but also provides effective competition against weeds. Vineyards and orchards quickly take on a colourful appearance.

When sown in 50 cm strips between the rows, it does not interfere with operations and gives the orchard a spectacular look!

Plant height: 20–50 cm

Flowering: June to October

Composed of 9 annual and 3 perennial species.

COMPOSITION

Annual Everlasting	<i>Xeranthemum annuum</i>
California poppy	<i>Eschscholzia californica</i>
Coriander	<i>Coriandrum sativum</i>
Cowherb	<i>Saponaria vaccaria</i>
