

Flowers for roadsides

MP08765 - Specific - Soil & site conditions

CHARACTERISTICS

This mixture of robust flowers can be mown regularly and will continue to bloom afterwards. It is an alternative to herbicides, makes few demands on the soil and remains low-growing. It is highly effective on embankments, ditches and verges.

Plant height: 20-40 cm

Flowering:

From summer onwards for spring sowings

From spring onwards in subsequent years

Composed of 5 annual and 12 perennial species.
