

Flowerly ground-cover

MP08604 - Specialist - Soil & site conditions

CHARACTERISTICS

This 'high-tech' seed mixture of perennial flowering plants was developed to cover specific surfaces such as rooftops and cemeteries.

This mixture is composed of perennial plants that develop under extreme conditions, such as little to no water and/or nutrients, a thin substrate, strong exposure to sun and wind, and a limited level of maintenance.

Plant height: 10-30 cm

Flowering: Spring to summer

Composed of 21 perennial species.

COMPOSITION

Blue fescue	<i>Festuca glauca</i>
Large-flowered self-heal	<i>Prunella grandiflora</i>
Maiden pink	<i>Dianthus deltoïdes</i>
Mountain alyssum	<i>Alyssum montanum</i>
Myrtle spurge	<i>Euphorbia myrsinites</i>
Rock Soapwort	<i>Saponaria ocymoides</i>

Sea Campion	<i>Silene uniflora</i>
Snow-in-summer	<i>Cerastium tomentosum</i>
Thrift	<i>Armeria maritima</i>
Tunicflower	<i>Petrorhagia saxifraga</i>
Wild marjoram of Oregano	<i>Origanum vulgare</i>
Wild thyme	<i>Thymus serpyllum</i>
