

Flush of daisies

MP08798 - Specific - Soil & site

CHARACTERISTICS

For a charmingly colourful lawn the old-fashioned way! If you sow this mixture together with a fine lawn, you will be delighted from the first days of March by pastel-coloured little flowers. Enjoy this colourful lawn and mow it once the flowers have finished blooming.

Plant height: 10–25 cm

Flowering: September to October

Composed of 5 biennial and 7 perennial species.
