

# Perennial dwarf varieties

## MP08615 - Landscape - Perennial mixtures

### CHARACTERISTICS

This mixture is highly suitable for rock gardens and hard-to-reach areas where large machinery cannot be used. Establishment of this perennial mixture will be slower than with annual species. To extend the lifespan of this mixture, it is recommended to cut back manually after the flowering period.

Plant height: 15-25 cm

Flowering: From March to July, from the year following sowing.

Composed of 20 perennial species.

### COMPOSITION

|                  |                      |
|------------------|----------------------|
| Alpine rockcress | <i>Arabis alpina</i> |
|------------------|----------------------|

|                      |                           |
|----------------------|---------------------------|
| Annual Baby's Breath | <i>Gypsophila elegans</i> |
|----------------------|---------------------------|

|          |                            |
|----------|----------------------------|
| Aubrieta | <i>Aubrieta x cultorum</i> |
|----------|----------------------------|

|                |                          |
|----------------|--------------------------|
| Basket of gold | <i>Aurinia saxatilis</i> |
|----------------|--------------------------|

|         |                        |
|---------|------------------------|
| Catmint | <i>Nepeta racemosa</i> |
|---------|------------------------|

|            |                           |
|------------|---------------------------|
| Clove pink | <i>Dianthus plumarius</i> |
|------------|---------------------------|

|                  |                               |
|------------------|-------------------------------|
| English lavender | <i>Lavandula angustifolia</i> |
|------------------|-------------------------------|

|                         |                              |
|-------------------------|------------------------------|
| Large-flowered Tickseed | <i>Coreopsis grandiflora</i> |
|-------------------------|------------------------------|

|             |                           |
|-------------|---------------------------|
| Maiden pink | <i>Dianthus deltoïdes</i> |
|-------------|---------------------------|

|                  |                         |
|------------------|-------------------------|
| Mountain alyssum | <i>Alyssum montanum</i> |
|------------------|-------------------------|

|               |                            |
|---------------|----------------------------|
| Rock Soapwort | <i>Saponaria ocymoides</i> |
|---------------|----------------------------|

|                |                             |
|----------------|-----------------------------|
| Snow-in-summer | <i>Cerastium tomentosum</i> |
|----------------|-----------------------------|
