

Enduro

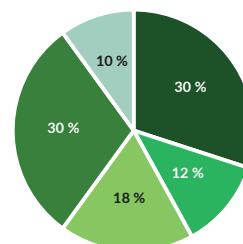

Multi-year structural mixture!

COMPOSITION

Perennial ryegrass TT Tetra	30%
Hybrid ryegrass Tetra	12%
Tall fescue	18%

Cocksfoot	30%
White clover	10%

CHARACTERISTICS

- 3-4 year mixture.
- Stable production throughout the entire growing season, even in case of drought.
- Good feed value due to late heading.
- Very good dry matter yield combined with good persistence.

USE

- Mowing grassland in drought-sensitive areas.
- Suitable for pre-wilting production.
- Meets the conditions for Multi-year Eco-cultivation
- subsidy of € 230/ha (CAP)
