

Speedy

Very palatable temporary varieties with high yield!

COMPOSITION

Hybrid ryegrass Tetra	30%
Italian ryegrass Diplo	20%

Italian ryegrass Tetra	50%
------------------------	-----

CHARACTERISTICS

- 1-2 year mixture.
- Combination of Italian ryegrass with Hybrid ryegrass.
- Very productive tetraploids with high sugar content and therefore very good palatability.
- Good resistance to diseases and rust
- Excellent persistence, so also 2nd year a high yield.

USE

- Top production at first cut.
- Also suitable for pre-wilting production.
