

Plantage Mix

The orchard mixture!

CHARACTERISTICS

Plantage Mix, the orchard mixture!

Mixture specially developed for driving lanes in orchards. Besides a well-maintained appearance, a good grass sward suppresses weeds and improves trafficability during wet periods.

In Plantage Mix we choose "slow-growing" varieties to limit maintenance.

We choose strong grasses with a dense sward.

Packaging :

10 kg

Sowing info :

1.5 kg/100 m²

March, April, May, June, September, October

USE

- Specially for driving lanes in orchards.
