

# Weekend Micro

## Play and sports turf!

### CHARACTERISTICS

Weekend Micro, play and sports turf!

Fine-leaved play lawn that has fast establishment and very good wear tolerance.

This lawn forms a strong, dense sward.

The micro clover provides natural nitrogen uptake from the air so that fertilizing becomes unnecessary or less necessary. Moreover, the micro clover is very drought tolerant so that your lawn stays beautifully dark green even in summer.

#### Packaging :

10 kg
